

IRANIAN PISTACHIO

Product Catalogue & Selection Guide

In-shell Pistachios	Pistachio Kernels	Green Kernels	Processed Ingredients
---------------------	-------------------	---------------	-----------------------

B2B product selection material for importers, distributors, retailers and food manufacturers.

Product specifications, crop parameters, laboratory values, packing and commercial terms are confirmed per lot and quotation.

Viraco Pistachio Portfolio

Viraco's pistachio portfolio is organized for practical B2B selection: in-shell varieties for snack and retail channels, whole kernels for ingredient use, green and double-peeled kernels for color-sensitive applications, and processed formats for bakery, confectionery and food manufacturing.

How to use this catalogue

Choose the product family, variety, size/grade and processing format. Final moisture, aflatoxin limits, defect tolerances, packaging, shelf life, MOQ and certificates should be stated in the purchase specification and confirmed against the relevant lot.

Family	Typical Selection Variables	Typical Applications
In-shell	Variety, ounce size, raw/roasted/salted, open-shell ratio	Retail, snack, wholesale, gifting
Whole kernels	Variety, color, whole/broken ratio, processing	Bakery, confectionery, ice cream
Green kernels	Color grade, peeled/double-peeled, whole/broken	Premium confectionery, gelato, garnish
Processed	Sliver/chop/granule size and uniformity	Bakery, coatings, fillings, industrial use

In-shell Pistachios

شور عربی

Fandoghi Pistachio

Round / compact in-shell pistachio and a major commercial Iranian type.

Selection: Sizes: 18/20 to 32/34 shown in supplier grading references.

Formats / use: Raw, roasted/salted; retail, wholesale and snack programs.

پسته احمدقائری خام

Ahmad Aghaei Pistachio

Long, elegant shell profile with strong premium retail presentation.

Selection: Sizes: 24/26, 26/28, 28/30, 30/32, 32/34 referenced.

Formats / use: Raw, salted/roasted and flavored variants.

اکبری سایز ۲۴

Akbari Pistachio

Extra-long Iranian pistachio positioned for premium assortments and gifting.

Selection: Sizes: 18/20, 20/22, 22/24 and 24/26 referenced.

Formats / use: Raw or processed; premium retail and wholesale.

کله قوچی ۶ ستاره خام سایز ۲۰-۲۲

Kaleh Gouchi Pistachio

Large, round in-shell pistachio with a bold visual profile.

Selection: Sizes: 20/22, 22/24 and 24/26 referenced in supplied material.

Formats / use: Raw or processed; snack, retail and bulk trade.

Pistachio Kernels

Whole Pistachio Kernels

Natural-skin whole kernels with green-purple tones for ingredient and premium food applications.

Applications: confectionery, bakery, ice cream, fillings, foodservice and further processing.

Ahmad Aghaei Kernels

Whole kernels from Ahmad Aghaei pistachios; final whole/broken ratio and color grade are confirmed per lot.

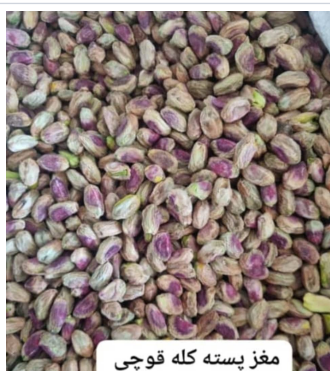

Applications: confectionery, bakery, ice cream, fillings, foodservice and further processing.

Akbari Kernels

Elongated whole kernels for premium confectionery, bakery and ingredient programs.

Applications: confectionery, bakery, ice cream, fillings, foodservice and further processing.

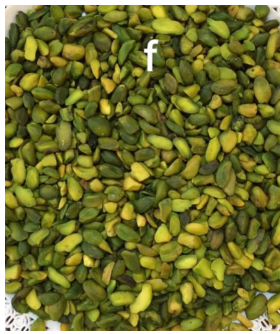

Current-Crop Early-Picked Kernels

Early-picked kernels showing pale green to purple tones. Commercial grade and crop specifications require lot confirmation.

Applications: confectionery, bakery, ice cream, fillings, foodservice and further processing.

Double-Peeled Green Pistachio Kernels

Supplier samples are identified by letter grades A-F. These grades are retained as supplier references until a measurable color specification, kernel maturity definition and acceptance method are formally agreed.

	Grade A Deep green reference		Grade B Green reference
	Grade C Green/yellow reference		Grade D Commercial green/yellow
	Grade E Lighter commercial grade		Grade F Processing-oriented grade

Recommended specification fields: color/grade definition, whole/broken ratio, moisture, aflatoxin, foreign matter, kernel defects, crop year, packing and storage.

Processed Pistachio Ingredients

Pistachio Slivers

Thin-cut pistachio pieces for bakery, confectionery, desserts and garnish.

Commercial note: cut or granule size, tolerances and fines percentage should be defined in the purchase specification.

Split / Chopped Kernels

Split and irregular kernel pieces for fillings, bakery and confectionery.

Commercial note: cut or granule size, tolerances and fines percentage should be defined in the purchase specification.

Granulated Pistachio

Granulated ingredient for coatings, ice cream, bakery and industrial food production.

Commercial note: cut or granule size, tolerances and fines percentage should be defined in the purchase specification.

B2B Specification & Ordering Checklist

For each quotation or contract, Viraco recommends confirming the commercial product name together with measurable acceptance criteria. This prevents a visual grade name from being mistaken for a technical specification.

Field	What to confirm
Product identity	Variety, in-shell/kernel, raw/processed, flavor
Size / grade	Ounce count or supplier grade and permitted tolerance
Crop	Crop year / harvest reference
Quality	Moisture, defects, foreign matter, open/closed shell ratio where relevant
Food safety	Aflatoxin limits and applicable laboratory/COA requirements
Processing	Roast profile, salt/seasoning level, cut/granule specification
Packing	Bulk/retail format, material, net weight, carton configuration
Commercial	MOQ, Incoterm, lead time, validity and payment terms
Storage	Shelf life, temperature/humidity and handling requirements

Packaging, laboratory values, certificates and final specifications are lot- and market-dependent and are therefore intentionally not presented as fixed claims in this catalogue.

Product selection starts with the right specification.

For quotations, samples and current-crop availability, please contact Viraco through your established commercial channel.

This catalogue is a commercial selection guide. Final contractual specifications are those confirmed in the applicable quotation, purchase order, specification sheet and/or certificate of analysis.
